

ONE CAFÉ. ONE REPORT. EVERY LEAK IN DOLLARS.

Find the profit your café is already making, but **isn't keeping.**

Most cafés don't lose money through one big mistake. They lose it through hundreds of small ones: a supplier lifting prices 8% in steps you never see, a weekend rostered for trade that didn't show, food cost drifting off your normal. Each one invisible on the P&L. A Profit Leak Audit reads thirteen weeks of your real numbers and hands them back to you in plain English, in dollars, in the order that pays fastest.

01 WHAT YOU GET

- ✓ **Thirteen weeks read line by line.** Your sales, your wage runs and every supplier invoice, cross-checked the way a P&L never does.
- ✓ **Your three priority leaks, in dollars.** Not a list of 40 things. The three that cost you most, each with the annual figure attached.
- ✓ **A one-page action roadmap.** Sequenced by payback speed, each fix sized to fit inside a working owner's week.
- ✓ **The working, shown.** Every dollar traced back to your own numbers, so you can check it, not just trust it.
- ✓ **Reviewed by a real operator.** Nothing reaches you until a café owner has read it and stood behind it.

Sample findings . illustrative, from our sample audit

\$12,400 / yr

 Weekend rostering built for the week you hoped for	\$5,650
 Coffee supplier creep , 8% above its own average	\$3,850
 Food cost drift off the café's own normal	\$2,900
 Total identified opportunity	\$12,400

The 3x guarantee

We find at least three times the fee in identified opportunities, or you don't pay. The audit is designed to pay for itself many times over before you change a single thing.

02 HOW IT WORKS

- You send the files**
Sales export, wage runs and supplier invoices. A short call to walk your venue.
- We read the last 13 weeks**
Ratios, trends and every invoice, checked against your own history and ATO benchmarks.
- You get the report**
Your leaks in dollars and a roadmap to close them. Yours to keep, whatever you decide next.

03 WHY LEAK

- **Benchmarked against the ATO.** Real 2023-24 tax-return figures for venues your size, not vendor marketing.
- **Your data stays yours.** Confidential, never sold, never used to train anything.
- **Built by an owner, not a spreadsheet.** Every finding read by someone who has run the floor.

I've spent 21 years in hospitality and almost ten of them owning cafés. I built Leak because I kept watching good venues give away real money through leaks nobody could see from a monthly P&L. This is the audit I wish someone had handed me.
